

MATTOON PLANTS YOUNG TREES ON FORESTS

Zuni Mountains Will Be Re-Forested by Rangers and Fenced Away from Livestock Until Sprouts Get Under Way.

(McKinley County Republican) W. B. Mattoon, who has charge of the forestry interests, and whose headquarters are in Albuquerque, arrived in this city Wednesday morning and proceeded to the Zuni mountains, where he will assist the rangers in reforesting that section.

Mr. Mattoon took out with him some 1,500 young yellow pine trees two years old, which will be planted in that reserve. In connection with the planting of the trees he will sow several acres in seeds of the pine tree. After this work is completed he will go to Sawyer, where he will plant 3,500 young pine trees and also sow several acres to seeds. The work will be done as rapidly as possible.

Mr. Mattoon explains that it is the purpose of the forestry service to reforest the denuded mountain districts where timber will grow, and not only will the trees be planted, but the seeds will be sown in order that the growth of the young timber may be rapid as possible. After the seeds have been sown and the trees planted they are protected by the construction of fences so that the sheep and cattle will not injure them. The Zuni mountain country and the Sawyers district will receive proper attention and in the course of a few years the country will be alive with the young timber which will save the forests from becoming a thing of the past. At the present rate of cutting it will not take long to devastate the forests unless something of this kind is done to save them.

Not alone will the forestry service reforest the denuded districts, but they will also re-establish the ranges for the stock. Large quantities of grass seeds are sown in the mountain where the range has been abused and destroyed, and as soon as the grass begins to grow the restrictions will be enforced relative to the ranging of stock thereon. These restrictions will be enforced by the rangers and they will not allow the ranges to be overstocked. This will insure the return of the range to what it has been and possibly the reclamation of a large area that has heretofore been of little value. The movement in this direction is a very commendable one. This section of New Mexico needs the attention of this department and we are glad to see Mr. Mattoon and his assistants begin the work, as it means so much both to the forestry and the range interests. We need but improvements and this beginning will be the forerunner of greater things as soon as the experiments prove successful.

COLORADO MEN LOSING MONEY

Mild Winter is Favorable But Market Proves a Surprise and Stuation in Colorado is Serious.

(Laramie, Colo., March 20)—At a conservative estimate the loss to sheep feeders in the Arkansas valley in Colorado for the season of 1910-11 will amount to many thousands of dollars. Elbowed by the pneumonia and market but spring scores of sheep have pledged every resource to purchase feeders in the face of higher prices last fall, and the influx into the lower valley was even larger than on previous years by reason of the scarcity of winter feed in the Fort Collins district.

The winter was cold and apparently every advantage favored the sheep men except the market, which is so low as to preclude the possibility of any market at all.

Many were saved from financial loss in the willingness of the banks in this section to accommodate them without other security than their bags. The situation is serious in some instances and, besides discouraging the industry, will hold up to a lower level this season.

SANTA FE EMPLOYEE LOSES FAITHFUL WIFE

Mrs. Herbert Morris Dies at Winslow After Severe Operation—Was Popular Mate of Many.

Again There.

Winslow, Ariz., March 20.—Mrs. Herbert Morris, wife of Herbert Morris, the Santa Fe claim agent, died suddenly at Winslow last Sunday morning, as the result of a surgical operation. Mrs. Morris did not rally from the operation. She suffered until Sunday morning, when she passed peacefully away.

Mr. Morris and family first located in Flagstaff, coming from Dallas, Texas, and moved to Winslow but a short time ago.

Mrs. Morris was a cultured woman and a kindly lady who soon made many warm friends during their short residence in Flagstaff. She leaves three daughters and a husband to suffer the grief of parting. The two eldest daughters were attending school in Flagstaff and were notified Saturday of the dangerous illness of their mother.

The funeral services were held in the M. E. church and the remains were taken to her old home at Dallas, Texas, for interment. Mr. Morris has the sympathy of his many friends in his bereavement.

OLD SORES DUE TO DISEASED BLOOD

Every symptom of an old sore suggests diseased blood. The inflammation, discharge, discolored flesh, and the fact that local applications have no permanent effect toward healing the ulcer, shows that deep down in the system there is a morbid cause for the sore. But more convincing proof that bad blood is the cause for these places is furnished by the fact that even removing the sore or ulcer by surgical operation does not cure; they always return. Nature will heal any sore if the blood is pure and healthy, but until the circulation is cleansed of all impure matter and supplied with nourishing and plastic qualities the infected condition of flesh is obliged to remain. S. S. S. heals Old Sores in a perfectly natural way. It goes into the blood, removes the impurities and morbid matters, adds nourishing qualities to this vital fluid, and brings about the very conditions that are necessary before any sore can heal. S. S. S. is a perfect blood purifier, acting directly on the circulation through the stomach and digestive members. Its use makes rich, red, healthy blood, which nourishes all flesh tissues instead of infecting them with the virulent matter which keep old sores open. Special book on Old Sores and any medical advice free.

EMPLOYEES OF SANTA FE HURT

Steam From Engine at Needles California Severely Burns Men Who Were at Work in Cab.

(The Needles Daily) An accident happened in the Santa Fe shops last Monday evening in which F. A. Curtis, a machinist, and C. A. Matthews, a supervisor, were quite badly scalded about the face and hands by escaping steam. There were three men in an engine cab doing some repair work. The engine had been fitted with fresh coal water and wooden plugs were used while the machine was being worked out. When fire was started up the wooden plugs were overheated and as soon as pressure came upon them they blew out and the escaping steam caught the men in the cab with the result stated above. James Perry, the third man, was slightly burned about one of his wrists and was sent to the Santa Fe hospital at Los Angeles. The other two men were taken in Tuesday evening. The three men were treated here by Dr. A. S. Parker, the local Santa Fe surgeon.

MIMBRES FARMERS MEET

Organize Fruit and Truck Growers Association to Look After Their Interests.

Special to Evening Herald, Deming, N. M., March 20.—Saturday at a meeting to form a permanent organization of the fruit and truck growers' association of the Mimbre valley the committee appointed at the meeting last Saturday made its report on the best method of organizing. This committee is composed of Chairman Smith, C. E. Wilson, Ed Overman, R. H. Cline and R. Bedell.

The question of uniform seed and how to obtain it, the best and most profitable crops to raise, a canning factory for Deming and the best manner of marketing it, among the subjects to be handled by the organization. It is the general opinion that the best watermelons in America can be raised here and F. O. Patterson, a man of experience and up-to-date ideas, says the Alabama Sweetes are the best and most marketable melon to raise. Mr. Patterson's talk on organization at the meeting last Saturday was right from the shoulder and right to the point. Ed Overman, a practical market gardener, gave some exceedingly good information. Ralph C. Ely was appointed a committee to investigate the moving of Senator Upson's canning factory to Deming.

Those present and participating in the enthusiastic gathering of the preliminary meeting were Alex A. Smith, E. D. Osborn, Jr., Henry Sexton, C. C. Rogers, S. W. Hutchins, L. C. Osborn, H. H. Conroy, H. H. Case, E. D. Conroy, W. J. Evans, Albert Ernest, Ed Overman, H. Williams, C. L. Baker, A. H. Doudleid, Morton Brown, C. E. Wilson, C. E. Nigh, F. O. Patterson, Frank Hon, J. W. Winters, R. C. Ely, D. White, E. E. Lawrence, L. W. Russell, A. Wilson, John Wadhill, J. A. Mattoon, Theo Marshall, Secretary Mitchell and Editors Bedell and Holt.

W. H. Hahn Company

The Markets

Hay—Kansas, per ton, \$18.00; Oklahoma, \$18.50; native, \$14.00; grama, \$1.00; Rio Puerco, \$18.00; alfalfa, \$15.00.

Grain—Corn per cwt., \$1.40; wheat, \$2.00; white bran, \$1.75; red bran, \$1.50; Colorado oats, \$2.00; Nebraska oats, \$1.75; native, \$1.25; barley, per bushel, \$1.25.

Staples—Flour, per 25-lb. sack, 90¢; sugar, per cwt., \$5.00-\$6.00; 15 lbs. for \$1.00; lard, 15¢; rice, 15¢; hominy, 6¢-10¢; native beans, 8¢; navy beans, 8¢.

FARMER LOSES HOUSE WHEN BROODER BURSTS

(Albuquerque News)

J. C. McKillip suffered the total loss of his two-story house on his ranch six and one-half miles south of town last Thursday afternoon between the hours of one and two.

The fire, Mr. McKillip thinks, started from an overheated chicken brooder, which was being operated in the house by the heat of an oil lamp.

The house had two rooms downstairs and one on the second floor. The structure, along with the contents, consisting of, besides the furniture, Mr. McKillip's clothing, a valuable typewriter and other personal belongings, were entirely consumed.

Unfortunately, there was no insurance. He intends to rebuild at once.

The funeral services were held in the M. E. church and the remains were taken to her old home at Dallas, Texas, for interment. Mr. Morris has the sympathy of his many friends in his bereavement.

Winnipeg, Alta., March 20.—Mrs. Herbert Morris, wife of Herbert Morris, the Santa Fe claim agent, died suddenly at Winslow last Sunday morning, as the result of a surgical operation. Mrs. Morris did not rally from the operation. She suffered until Sunday morning, when she passed peacefully away.

Mr. Morris and family first located in Flagstaff, coming from Dallas, Texas, and moved to Winslow but a short time ago.

Mrs. Morris was a cultured woman and a kindly lady who soon made many warm friends during their short residence in Flagstaff. She leaves three daughters and a husband to suffer the grief of parting. The two eldest daughters were attending school in Flagstaff and were notified Saturday of the dangerous illness of their mother.
